S U M M A R Y

Passionate and results-driven Frontend Developer with a solid three-year track record in crafting high-impact web applications for both mobile and desktop platforms, adept in collaborating with UX and design teams to plan the technical writing and execution of functional specifications for websites and applications. Proficient in translating design concepts into reality using a dynamic skill set encompassing HTML, CSS, and JavaScript. Recognized for optimizing layouts to achieve enhanced usability and performance, contributing to a substantial boost in visual appearance. Staying at the forefront of emerging frontend technologies like React Js and Angular, ensuring that applications consistently meet and surpass industry standards. Collaborative team player with a strong commitment to innovation and excellence. Seeking new opportunities to leverage my expertise in dynamic and innovative development projects. Let's connect and explore the possibilities!

E X P E R I E N C E
